

Quad Feeder Shelf

Part number

824-31

The quad feeder shelf holds 30 locations @ 28mm centers. Secured safely against an ESD foam. Up to 4 shelves fit on the 851M Mobile kitting frame.

Mossman Tebbs designs and manufactures a high quality range of reel racks, feeder mobiles and board handling solutions, capable of meeting the exacting demands of electronics manufacturing. All of our products are ESD Safe offering epoxy-polyester powder coating, providing a static-dissipative finish; sheet metal surfaces are zinc-plated; and only conductive Tyre castors are used.
