

Mobile Kitting Frame Model # 851M

Mossman Tebbs designs and manufactures a high quality range of reel racks, feeder mobiles and board handling solutions, capable of meeting the exacting demands of electronics manufacturing. All our products are ESD Safe offering epoxy-polyester powder coating, providing a static-dissipative finish; sheet metal surfaces are zinc-plated; and only conductive Tyre castors are used.

Our equipment delivers performance and durability, minimizing the risk and cost of component damage due to inappropriate handling.

Foot Print

920 wide x 910 deep x 1710 tall

Build Quality

Solid design is essential in order to meet the demands of a busy production line – day after day

Security

Ensuring the safe and secure storage of equipment, even during transportation

Ease of use

flexible, ergonomic design significantly improves logistics and production flows, saving time and money
